ABSTRACT

This is an example of an EUSIPCO-98 Proceedings paper, as you should submit it. Use a two column format, with the title and author information centered across both columns on the first page. Illustrations and figures may also span both columns, but all other text should be arranged in two columns. Dimensions for the paper are specified below.

1 INSTRUCTIONS FOR PROCEEDINGS PAPER

The EUSIPCO-98 Proceedings will be printed by photo-offset from the copy prepared by you.

NO CHANGES WILL BE POSSIBLE AFTER SUBMISSION of your manuscript. Please adhere to the style guidelines below to allow us to maintain uniformity in the final printed copy of the Proceedings. A sample Proceedings paper (first page only) is included in this packet.

A latex style file is available by anonymous ftp from ftp.di.uoa.gr (143.233.122.20) in the file pub/eusipco/eus96.sty.

You can also use our WWW site http://www.di.uoa.gr/ eusipco to get this (and much more) information about EUSIPCO-98.

1.1 General Instructions

Prepare up to 4 (four) pages of text and figures, ONE ORIGINAL AND ONE COPY. Longer papers will not be printed.

Text and figures MUST FIT in a 240×180 mm box.

The manuscript that you prepare will be photographed and printed as it is received. Neatness is of paramount importance. Since a high quality paper will be used for the Proceedings, it is advantageous for the authors to include actual photographs of images whenever possible. Use dark BLACK ink. Do not use blue, green, brown, or any other color, either in the text or illustrations.

1.2 Style Guidelines

All manuscripts must be single spaced, in the specified two column format.

SUGGESTED TYPE SIZE IS 10 POINT. Type size must be at least 9 point (capital letters at least 2mm high, with approximately 7.3 characters/cm horizontally in normal text). For 9 point type, there should be no more than 8 lines/inch vertically. Larger type sizes require correspondingly larger vertical spacing.

Do not overcrowd and create an unreadable paper by making the lettering or the line spacing too small. Please note that the camera-ready papers will be slightly (5 %) reduced before being included in the Proceedings.

1.2.1 Paper Title

The paper title is to appear in CAPITAL LETTERS, boldface if possible, centered across the top of the two columns on the first page. Suggested type size is 17pt.

1.2.2 Authors' Name(s)

The authors' name(s), affiliation(s), mail and e-mail address(es) should appear below the title in capital and lower case letters.

The template indicates the general areas where the title and author information should go. These items need not be strictly confined to the lines indicated; papers with multiple authors and affiliations, for example, may require two or more lines for this information. But please do leave space above the title, and between the affiliation(s) and the start of the text.

1.2.3 Abstract

Each paper should contain an abstract of about 100-150 words that appears at the beginning of the paper.

1.2.4 Major Headings

Major headings should appear in CAPITAL LETTERS, boldface if possible.

1.2.5 Subheadings

Subheadings should appear in capital and lower case, boldface if possible.

1.2.6 Sub-subheadings

Sub-subheadings should appear in capital and lower case, italic if possible.
